

PAPO COIN - WHITEPAPER

- **Issuer:** PaPo Vietnam
- **Founder:** PIAN LE THACH

1. EXECUTIVE SUMMARY

PaPo Coin (PAPO) is not just an ordinary cryptocurrency but a core digital asset, acting as the lifeblood in the entire financial and media ecosystem of PaPo Vietnam. The project was born with a pioneering mission: Connecting Blockchain technology solutions into the real economy, specifically focusing on specialized Agency and Media services for the cryptocurrency and financial technology (Fintech) market.

The core difference and exclusive competitive advantage of PaPo Coin lies in its real asset backing and strict legal compliance. We are committed to creating a safe, transparent, and sustainably developing investment environment for the domestic and international investor communities.

2. STRATEGIC ECOSYSTEM

The value of PaPo Coin is backed and promoted by a practical ecosystem, generating continuous cash flow and usage demand. The project is backed by solid pillars belonging to the PaPo Vietnam system:

- **PaPo Invest Co., Ltd.:** Acts as an Agency unit providing comprehensive solutions for Coin projects in Vietnam. At the same time, PaPo Invest is directly responsible for developing, securing, and operating the digital storage wallet (Wallet) to serve partners with market expansion needs.
- **Le Thach Media Co., Ltd.:** A leading practical unit in the field of event organization and deployment of large-scale media campaigns for the financial technology industry in Vietnam. The support from Le Thach Media helps ensure coverage, brand recognition, and community attraction for PaPo Coin.
- **Song Ma Media and Event Co., Ltd. (Song Ma Media):** Is a strategic member in the ecosystem of PaPo. With its headquarters located in the center of Can Tho City, Vietnam, Song Ma Media was established with the central goal of strongly promoting and developing the brand for the entire PaPo project in the Mekong River Delta (MRD) region.

- *Field of professional operation:* Is the main unit executing programs and events related to Vietnamese Coin projects in the MRD region. Takes charge of deploying promotional campaigns on mass media systems, mainstream press, and promoting other potential Vietnamese Coin projects in the Western region.
- *Resources and Strategic Vision:* Possesses a youthful and creative workforce, guided by professional consultation from veteran journalists and reporters. Song Ma Media carries the vision of becoming the most powerful media channel to develop technology and digital finance projects with a commitment to building and affirming a strong brand for the entire project within the PaPo ecosystem. Operating motto: Connecting values, elevating Vietnamese brands.

3. TECHNICAL SPECIFICATIONS & TOKEN ALLOCATION (TOKENOMICS)

PAPO's Tokenomics mechanism is meticulously designed to combat inflation and increase asset value over time.

- **Token Name:** PaPo Coin
- **Symbol:** PAPO
- **Fixed total supply:** 13,000,000 PAPO (No additional minting)
- **Expected listing price:** 2.307 USD

Supply allocation plan:

Component	Percentage	Quantity (PAPO)	Purpose / Notes
Company holdings	35%	4,550,000	Company's asset value or used for transfer to strategic shareholders.
Market circulation	65%	8,450,000	Issued according to a strictly controlled roadmap extending to 2036.

4. ISSUANCE ROADMAP (ROADMAP)

Bringing the Token to the market is strictly controlled by the Board of Management through a Smart Contract. The ultimate goal is to maintain stable asset value with a fluctuation margin of plus or minus 2%, protecting investors from price manipulation volatility.

- **Phase 1: Startup (Year 2026)**

- **Q2/2026:** Will be listed on the international exchange (DEX).
- **Q3/2026:** Will be listed on the international exchange (MEXC).
- **Phase 2: Sustainable growth (2027 - 2036)** The remaining amount of tokens will be gradually unlocked year by year to support liquidity without causing sell-off pressure:
 - **Year 2027:** Release 10%
 - **Year 2028:** Release 10%
 - **Year 2029:** Release 6%
 - **Year 2030:** Release 5%
 - **Period 2031 – 2036:** Steadily release 4% each year.

5. FINANCIAL COMMITMENT & COLLATERAL ASSETS

To affirm absolute prestige and protect the maximum benefits for investors, PaPo Coin is one of the few projects that establishes a transparent collateral asset mechanism through the state banking system:

1. **Cash Deposit:** 10,000,000,000 VND (Exactly ten billion dong) is blocked at the bank to establish a Risk Guarantee Fund.
2. **Gold Deposit:** 60 taels of SJC gold are deposited as a reciprocal asset. This ensures that PAPO always has a solid "intrinsic value" supporting the ecosystem.

Note: All asset deposits comply with current regulations on digital asset management and future guiding documents from the State Bank.

6. LEGAL BASIS IN VIETNAM

The PaPo Coin project commits to operating transparently within the legal framework of Vietnam:

- **Compliance with Scheme 1255:** Operations closely follow the Prime Minister's Decision on approving the Scheme to perfect the legal framework to manage virtual assets and virtual currencies.
- **Enterprise Law 2020:** Core operating units (PaPo Invest, Le Thach Media) are all legally established legal entities, with tax codes, and are accountable before the law. (Song Ma Media can be added to this group if the company is directly responsible for core operations).

- **Anti-Money Laundering (AML):** The project applies strict KYC (Identity Verification) standards for users and partners to ensure transparent, clean, and safe capital flows.

7. VISION UNTIL 2036

PaPo Coin is not merely a digital currency unit, but a testament to professionalism, methodicalness, and long-term vision in the Blockchain industry. With a 10-year release roadmap, we do not pursue speculative hot growth.

PaPo Vietnam commits to slow but steady development, taking the surplus value created from actual Agency and Media services as the core foundation to promote, maintain, and sustainably increase the Token's value.
